A Note from Town Supervisor Peter Martini

As the Winter season of 2024 - 2025 has come to a close, I would like to take this opportunity to highlight some of the activities and issues the Town of Torrey has addressed since the beginning of the year as well as what we expect to tackle this Spring and Summer.

Legislatively, there were two items of special note that the Town Board enacted this Spring. First, at the urging of Councilman Bruce Henderson, the Board adopted a "Right to Farm Law" which reinvigorated the local farm council. The second item was the adoption at the request of the Planning Board's Solar Committee an updated version of the Town's Solar Law. This will align us more closely with the other towns in Yates County as well as detail specific requirements for prospective developers.

The Town of Torrey has contracted with DSD Web Works of Fairport, New York for a website upgrade which should be rolled out this Spring.

Also, the Town has applied for a grant to fund an architect review of the facility needs of the Town building. This is necessitated by the absorption of the Assessor's office from the Town of Benton, the inadequacy of the Town Courtroom, as well as other issues.

The Town accepted a New York State audit of our policies and procedures which necessitated the adoption of a Procurement Policy, Investment Policy, and Credit Card Use Policy among other changes.

The Town has contracted with Hunt engineering to replace culverts with new ones on Perry Point Road over tributaries to Seneca Lake. A Draft Report is scheduled for September 2025, Design Approval by January 2026, Construction Award in January 2027, and Construction over Spring/Summer 2027.

The Town of Torrey held its second annual **Earth Day Community Clean-up** led by Torrey resident, Donna Rae Sutherland and Highway Superintendent, Tim Chambers, on Saturday April 26th from 10:00 am to 1:00 pm. The volunteers, ages 3 through 7*, wearing bright yellow T-shirts

braved a bit of misty rain to collect around 30 repurposed bags of trash from numerous roadsides, public parks, sidewalks, and the area's hiking trails. A post clean-up gathering was held at the Seneca Stag who provided one complimentary beverage to the volunteers.

A big thank you to those volunteers who despite the rain participated and their efforts to make the Town of Torrey an example of civic pride. A special note of gratitude to Donna Rae and Tim for their organizing and coordinating this event and to Darlene Smith of Seneca Stag for her generosity.

The Town of Torrey will still hold its annual clean-up for household debris on June 14th from 8:00 am to 2:00 pm. See further details below for acceptable and unacceptable household items at this June 14th event.

Finally, the Town of Torrey has finalized and certified the costs associated with Water District One (**WD1**), allowing for the final payments for the costs of the \$2,400,000.00 project.

Unfortunately, the grant obtained through Congresswoman Claudia Tenney's Office for the Perry Point Water District (**WD2**) was deleted from the Continuing Resolution passed in March by Congress. The Town will continue to pursue other avenues of funding for this project.

In closing, as always I encourage you to attend the monthly Town Board meetings which are held on the second Tuesday of the month at 7:30 pm at the Town Building on Geneva Street. You will see the issues facing the Town of Torrey being discussed as well as affording you an opportunity to bring forward your concerns and comments on town issues.

From the Desk of Town Watershed Inspector (*Yates County Soil & Water*)

The Town's inspectors can be contacted at the Yates County Soil and Water Conservation Department 315- 536-5188.

The Yates County Soil and Water Conservation District provides the watershed inspection services for the Town of Torrey and Village of Dresden. Educating homeowners on the function of their wastewater treatment systems has proven to be a tremendous benefit.

In November of 2014, the Town of Torrey passed a local Wastewater Law effective January 1, 2015. Under the new law, any onsite wastewater treatment system within 200' of Seneca Lake or a DEC classified stream is required to be inspected every 5 years. The cost of the inspection is borne by the Town of Torrey (unless this is a property transfer). However, any pumping of the septic or repair is a cost to the homeowner. We are now in year 11 of these inspections.

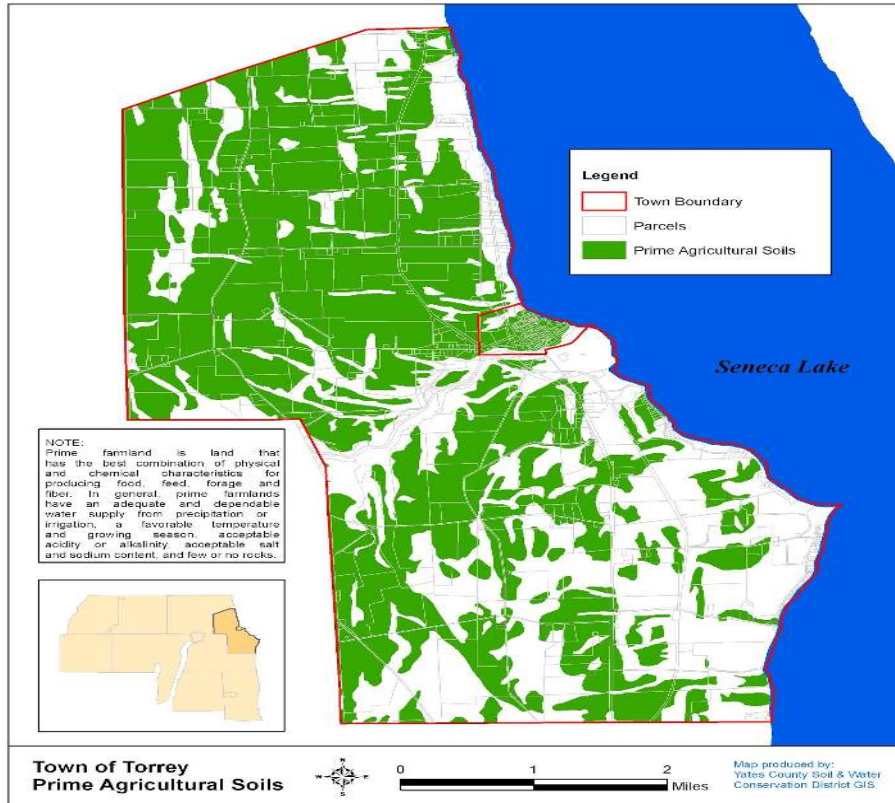

The Town Board at its February 11,2025 meeting approved its Yates County Soil and Water Agreement for Services in 2025 at a cost of \$13,520 per year.

If any residents have questions regarding the watershed inspection program, they may call the office at 315-536-5188.

Soil & Water also continues to interact with all of our local farmers utilizing NYS's Agricultural Environmental Management program. This program has been utilized in the county since 1997. We have worked with local farmers on a suite of practices

including soil erosion and field runoff, manure storage, barnyard runoff, and manure and nutrient management.

Below is the current prime agricultural land in the Town of Torrey. Prime agricultural land constitutes over 60% of the land area in the Town of Torrey.

Reminder: Since 2009 the **DEC** has had in place a **No Burn Ban** from **March 16th** to **May 14th** throughout **Yates County**.

The new tax rate is \$11.11.502771 per \$1000 of assessed value, which is lower than the previous fiscal year of \$12.811686. *However*, because of a town wide reassessment done last year most property owners in the Village will see an increase in their total tax bill!
- Also at the April 16th meeting a public hearing on a local law to override the tax levy limit established by New York State law was held.
- The village is the lead agency under the New York State Environmental Quality Review Act (**SEQRA**) for the Village of Dresden Water System Main Replacement Project.
